

EarthWalk ChromeCart Series

CC30+

CC40

EarthWalk's ChromeCart Series of mobile labs are designed specifically for today's Chrome classrooms.

Available in 30 and 40 user models, ChromeCarts feature individual horizontal storage areas large enough for devices having up to 14" screens. Carts have welded-steel construction with a small, space-saving footprint and optional custom upgrades to fit your specific needs.

SUPPORTS: Windows10 Mac chrome iPad android

ChromeCart not only allows you to store, secure, charge and deploy Chromebooks, it's also compatible with most Ultrabook, Netbook and Tablet devices.

CC30+

Optional storage bins—
Super-sized and molded from strong, durable, industrial-grade polymers

Horizontal device storage

Solid construction using welded steel joints

CC40

*Optional 6" caster upgrade

30 USER + STORAGE | 40 USER

Lab Dimensions

Work Surface Ht: 107.9 cm / 42.5"
Handle Ht: 113.03 cm / 44.5"
Width: 69.22 cm / 27.25"
Depth: 72.65 cm / 28.6"
Weight: Approx.* 81.65 kg / 180 lbs.

*Empty weight—actual weight determined by configuration of system

Compartment Dimensions

Width: 30.5 cm / 12"
Depth: 38.1 cm / 15"
Height:
CC30+ 3.3 cm/1.3"
CC40 3.6 cm/1.4"

CONFIGURATION OPTIONS

Charging Systems

AC Smart Bar*

For budget-minded consumers, EarthWalk labs can be configured with AC power outlets in each storage compartment for use with each device's AC adapter. But this is no basic power bar: We have staggered the sockets in a zig-zag formation, ensuring that adapters will not block other sockets.*

Digital AC-SMART Switching System

Your devices' AC adapters can be configured with our Digital AC-SMART Switching system, which can auto-sense the amount of electrical draw required by each device's AC adapter and safely switch between groups of devices to prevent overloading the electrical circuit. The digital smart switching system will monitor and continue increasing the number of devices that are being simultaneously charged to help shorten the total lab charging cycle.

Pre-Wired Solutions for USB Type-C

The latest standard in charging portable devices, we can pre-wire your carts and stations with our certified USBC-PD adapters or you can supply us with your existing AC adapters—either way we'll take care of the wiring headache for you. Literally plug-n-play as soon as your order is delivered to you. Combine USB-C with our AC-SMART system and get managed charging power for all of your devices from a single power cord, quickly charging all devices and eliminating circuit overload.

iCharge—Powered USB Charging for iPads, Tablets or USB-C Devices

The iCharge solution features a high-efficiency central power supply system with ten USB 5V 2.4A charging ports. Additional iCharge systems can be daisy-chained to increase system capacities. Pre-installed USB, USB-C or Lightning data cables in each storage compartment make deployment and support convenient.

HE-PD—High Efficiency USBC-PD Charging System*

HE-PD is a pre-wired USBC-PD charging solution featuring a high-efficiency central power supply system with six USBC-PD auto-sensing, multi voltage (5V,9V,12V,15V) charging ports. Additional HE-PD systems can be integrated to increase system capacities. Pre-installed USB-C or Lightning data cables in each storage compartment make deployment and support convenient.*

Integrated Network Systems

Integrated Wireless Packages

EarthWalk labs can be custom configured to integrate additional wireless access points or router systems. This system can provide complete wireless access or help enhance your existing infrastructure by providing additional access as the wireless clients are moved from location to location. The system provides Ethernet uplink to the cart and any required hardwired to wireless switching component. EarthWalk can supply the wireless components or custom integrate any specific or existing electrical components your network may require.

ChromeCart Storage Bins (Optional)

Provide additional secure storage for headphones and peripherals or use to deploy your Chromebooks in different areas or classrooms. Molded from strong, durable, industrial-grade polymers, super-size bins are resistant to acid and alkali spills. Sturdy, one-piece construction is water-, rust- and corrosion-proof. Bins available in blue.

Enhancement Options

- Caster Upgrades
- ChromeCart Storage Bins
- Rack-mount Modification Kits
- Anti-Static Kit
- Enhanced Security Kits

Warranty

- Lifetime warranty on metal and structural components
- 3-year warranty on electrical components

* It's possible that all devices may not simultaneously charge when using multiple AC adapters. This solution may require an electric timer to safely switch between groups of devices to prevent overloading the electrical circuit. Speak with your EarthWalk rep regarding this.

* Speak with your sales rep regarding device compatibility for this charging system
