

EarthWalk Saver Series 30

Saver Series 30 allows you to store, secure, charge and deploy up to 30 devices and protective cases up to 1" thick.

Compatible with Laptop, Chromebook, Ultrabook, Netbook, iPad and Tablet devices having up to 14" screen size. Multiple charging options.

Small space-saving footprint

Model: SS30

21 wide x 21" deep x 37" tall
Single door access

Device screen size capacity: up to 14"

SUPPORTS:  Windows10  Mac  chrome  iPad  android

Vertical storage of devices up to 1" in thickness

Organized charging and cord management with our optional HE-Z Charging system

POPULAR OPTIONS:

Padded Push Handle

External Cord Wrap/Storage

Features:

- Supports up to 30 devices
- Each model has a relatively small footprint
- Steel construction with padded top surface
- Ships fully assembled w/ pre-wired options
- Meets ANSI international safety standards
- Key-locking front and rear doors
- 4" ball-bearing swivel casters
- Two-wheel locking brakes
- Illuminated Master Power ON/Off switch
- Two peripheral electrical outlets
- Single removable 10-foot power cord
- Rubber coated device storage areas & dividers
- Cable management system

 Weight: Approx.* 45.4 kg / 100 lbs.

* Empty weight—actual weight determined by configuration of system

Device Storage Dimensions

Width: 2.5 cm / 1"
 Depth: 38 cm / 15"
 Height: 27.9 cm / 11"

CONFIGURATION OPTIONS

Charging System Options

Standard AC Charging System

For budget-minded consumers, EarthWalk carts can be configured with AC power outlets in each storage compartment for use with each device's AC adapter.

Digital AC-SMART Switching System

EarthWalk's Digital AC-SMART Switching system can autosense the amount of electrical draw required by each device's AC adapter and safely switch between groups of devices to prevent overloading the electrical circuit. The digital smart switching system will monitor and continue increasing the number of devices that are being simultaneously charged to help shorten the total cart charging cycle.

Pre-Wired Solutions for USB Type-C

USB-C is the latest standard in charging portable devices. We can pre-wire your carts and stations with our premium 45-watt USB-C PD adapters or you can supply us with your existing AC adapters. Literally plug-n-play as soon as your order is delivered. Combine USB-C with our AC-SMART system, and we can provide managed charging power for all of your devices from a single power cord, charging all your devices as quickly as possible and eliminating the worry of overloading your electrical circuits.

HE-Z - High Efficiency Charging System*

This patented system provides the most energy-efficient and **easy** approach to charging groups of laptops—**no AC adapters needed!** EarthWalk's High Efficiency (HE) charging integrates a central power supply and control circuit board system to distribute simultaneous power to every device with up to 85% more energy efficiency than charging with AC Adapters. HE-Z charging cables can be easily swapped when devices are changed or updated and this system also allows multiple brands of devices to be stored and charged in one cart/station/locker.

* Speak with your sales rep regarding device compatibility for this charging system

iCharge - Adapter-Free, USB Charging System

Select EarthWalk's iCharge system to provide an integrated USB charging system for your USB charged iPad, Tablets, or USB-C style devices. iCharge delivers a Full 2.4A per port to simultaneously charge all of your USB devices as quickly as possible.
