

EarthWalk SaverSeries Rev5

Can be configured for 30 to 36 devices

SUPPORTS: Windows10 Mac chrome iPad android

The SaverSeries Rev5 allows you to store, secure, charge and deploy your choice of 30, 32 or 36 devices with protective cases up to 1.3" in thickness.

Compatible with Chromebook, laptop, tablet or iPad devices having up to 14" screen size.

Multiple charging and upgrade options available.

Models: SS30.5 | SS32.5 | SS36.5

Device Sterilization Package Available

CleanZone Sanitation

Ozone technology efficiently kills germs, viruses and bacteria on all devices

Rugged construction
with small, space-saving
footprint

SS Rev5

22 wide x 22" deep x 36" tall

Integrated HE-PD system
w/ pre-wired USB-C
charging cables

Vertical storage of devices with
removable, easy-to-configure
rubber-coated dividers

Built with
durable,
welded-steel

Features:

- Supports up to 36 devices w/ up to 14" screen size
- Heavy-gauge steel construction—Made in the USA
- Relatively small footprint
- Removable, easy-to-configure slot dividers
- Rubber-coated device storage area
- Easy-Zip cable management system
- Dual top-mounted push handles
- Non-skid top surface
- Ships fully assembled w/ pre-wired options
- Meets ANSI international safety standards
- Key-locking front and rear doors
- 5" industrial duty swivel casters
- Two-wheel locking brakes
- Illuminated Master Power ON/Off switch
- Internal peripheral electrical outlets
- Single removable 10-foot power cord
- Lifetime warranty on chassis / 3-year warranty on all electronic components

SS REV5 SPECIFICATIONS

Cart Dimensions

Width: 56.2 cm / 22.13"
Depth: 56.2 cm / 22.13"
Height: 92.7 cm / 36.63"
Weight: Approx.* 50 kg / 110 lbs.

* Empty weight—actual weight
determined by configuration of system

Device Storage Dimensions

Width:
SS30.5 (30-bay) – 3.30 cm / 1.3"
SS32.5 (32-bay) – 3.04 cm / 1.2"
SS36.5 (36-bay) – 2.54 cm / 1.0"
Depth: 38 cm / 15"
Height: 25.4 cm / 10"

CONFIGURATION OPTIONS

Charging Systems

AC Smart Bar

For budget-minded consumers, EarthWalk labs can be configured with AC power outlets in each storage compartment for use with each device's AC adapter. But this is no basic power bar: We have staggered the sockets in a zig-zag formation, ensuring that adapters will not block other sockets.

[NOTE: When using AC adapters to charge devices' batteries, it's possible that all devices may not simultaneously charge. This solution may require an electric timer to safely switch between groups of devices to prevent overloading the electrical circuit. Speak with an EarthWalk rep regarding this.]

Digital AC-SMART Switching System

Your devices' AC adapters can be configured with our Digital AC-SMART Switching system, which can auto-sense the amount of electrical draw required by each device's AC adapter and safely switch between groups of devices to prevent overloading the electrical circuit. The digital smart switching system will monitor and continue increasing the number of devices that are being simultaneously charged to help shorten the total lab charging cycle.

Pre-Wired Solutions for USB Type-C

The latest standard in charging portable devices, we can pre-wire your carts and stations with our certified USB-C-PD adapters or you can supply us with your existing AC adapters—either way we'll take care of the wiring headache for you. Literally plug-n-play as soon as your order is delivered to you. Combine USB-C with our AC-SMART system and get managed charging power for all of your devices from a single power cord, quickly charging all devices and eliminating circuit overload.

iCharge—Powered USB Charging for iPads, Tablets or USB-C Devices

The iCharge solution features a high-efficiency central power supply system with ten USB 5V 2.4A charging ports. Additional iCharge systems can be daisy-chained to increase system capacities. Pre-installed USB, USB-C or Lightning data cables in each storage compartment make deployment and support convenient.

HE-PD—High Efficiency USBC-PD Charging System⁺

HE-PD is a pre-wired USBC-PD charging solution featuring a high-efficiency central power supply system with six USBC-PD auto-sensing, multi voltage (5V, 9V, 12V, 15V) charging ports. Additional HE-PD systems can be integrated to increase system capacities. Pre-installed USB-C or Lightning data cables in each storage compartment make deployment and support convenient.

⁺ Speak with your sales rep regarding device compatibility for this charging system.

Option: Device Decontamination

CleanZone Sanitation

EarthWalk utilizes ozone technology to safely and efficiently kill germs, viruses and bacteria on all devices inside the cart. Decontamination is a quick cycle and there is no chemical residue: Ozone dissipates back to oxygen. Can fully sterilize devices more efficiently than UV or chlorine/chemicals.

Option: Custom Graphic

Door Graphics

SaverSeries cart doors can be personalized showing your school logo, slogan, mascot or subject-related graphics.

Cart Enhancement Options

- CleanZone Device Decontamination System
- Customized Door Graphic
- Pre-Wiring Services
- Data & Power Cables
- Anti-Static Kit

Warranty

- Lifetime warranty on metal and structural components
- 3 years parts & labor

Optional extended warranty plans available
